About Porto Montenegro and the Boka Bay

Porto Montenegro is the premier marina village and yacht homeport in the Mediterranean. This state-of-the-art facility has been designed to cater to the advanced needs of all yachts, their owners, guests and crew with specific infrastructure for the largest yachts afloat. The marina offers over 250 berths (with an additional 180 under construction for 2014), and an on-land development which encompasses 130 luxury residences, an Olympic size pool, restaurants, bars, cafes, shops, boutiques and other amenities. The Boka Bay, also known as the Bay of Kotor, is one of the Mediterranean's most distinctive and striking landscapes. Located on the south side of the Adriatic Sea, it consists of four small bays surrounded by mountains of 1000 to 1700 meters rising directly from the water and joined by narrow channels to form one of the deepest natural harbours in Europe. According to the World Travel & Tourism Council and Oxford Economics report (2011), Montenegro is likely to be the fastest-growing travel and tourism economy in the world over the next decade.
